CONTENTS

PAGE

COYER, PHILIP E. Responses of regularly-firing *Aplysia* R_3-R_{13} neurones to normoxia and hypoxia 1

TOEWS, D. P., HOLETON, G. F. AND HEISLER, N. Regulation of the acid-base status during environmental hypercapnia in the marine teleost fish *Conger conger*. . . 9

ELLIOTT, C. J. H. Wing hair plates in crickets: physiological characteristics and connections with stridulatory motor neurones 21

HAYES, TIMOTHY K. AND KEELEY, LARRY L. Patterns and control of neurosecretion for the cytochromogenic hormone in *Blaberus discoidalis* cockroaches. 49

HAIM, A., HETH, G., PRATT, H. AND NEVO, E. Photoperiodic effects on thermoregulation in a 'blind' subterranean mammal. 59

ZERAHN, KARL. Comparison between active transport of Tl^+, K^+ and Rb^+ across the isolated short-circuited frog skin. 65

HUDDART, H., BAYTON, E. AND SHANKLIN, J. Influence of some common methylxanthines on the contractile responses and calcium mobilization of ileal, vas deferens and bladder smooth muscle 73

MORISAWA, M., SUZUKI, K., SHIMIZU, H., MORISAWA, S. AND YASUDA, K. Effects of osmolality and potassium on motility of spermatozoa from freshwater cyprinid fishes 95

MORISAWA, M., SUZUKI, K. AND MORISAWA, S. Effects of potassium and osmolality on spermatozoan motility of salmonid fishes. 105

YANG, QIN-ZHAO AND BURROWS, MALCOLM. The identification of motor neurones innervating an abdominal ventilatory muscle in the locust 115

BOLT, STEPHEN R. L. Haemolymph concentration and apparent permeability in varying salinity conditions of *Gammarus duebeni*, *Chaetogammarus marinus* and *Gammarus locusta* 129

KOCH, FRANZ AND WIESER, WOLFGANG. Partitioning of energy in fish: can reduction of swimming activity compensate for the cost of production?. 141

MUNOZ, DOUGLAS P., PAWSON, PETER A. AND CHASE, RONALD. Symmetrical giant neurones in asymmetrical ganglia: implications for evolution of the nervous system in pulmonate molluscs 147

KRAHL, BODO AND ZERBST-BOROFFKA, IRENE. Blood pressure in the leech *Hirudo medicinalis*. 163

VAN DEN THILLART, GUIDO, RANDALL, DAVID AND HOA-REN, LIN. CO_2 and H^+ excretion by swimming coho salmon, *Oncorhynchus kisutch* 169

BRAFIELD, A. E. AND CHAPMAN, G. Diffusion of oxygen through the mesogloea of the sea anemone *Calliactis parasitica* 181

CLARAC, F. AND CHASSERAT, C. Quantitative analysis of walking in a decapod crustacean, the rock lobster *Jasus lalandii*. I. Comparative study of free and driven walking 189

PAGE

CHASSERAT, C. AND CLARAC, F. Quantitative analysis of walking in a decapod crustacean, the rock lobster *Jasus lalandii*. II. Spatial and temporal regulation of stepping in driven walking 219

GRAY, P. T. A. AND MILL, P. J. The mechanics of the predatory strike of the praying mantid *Heirodula membranacea*. 245

NILSSON, HEIMO L. AND LINDSTRÖM, MAGNUS. Retinal damage and sensitivity loss of a light-sensitive crustacean compound eye (*Cirolana borealis*): electron microscopy and electrophysiology 277

GILLARY, HOWARD L. Electrical potentials from the regenerating eye of *Strombus* 293

WOAKES, A. J. AND BUTLER, P. J. Swimming and diving in tufted ducks, *Aythya fuligula*, with particular reference to heart rate and gas exchange 311

BARBER, ANDREW. Nervous control of the salivary glands of the carnivorous mollusc *Philine aperta* 331

NEIL, D. M., SCHÖNE, H., SCAPINI, F. AND MIYAN, J. A. Optokinetic responses, visual adaptation and multisensory control of eye movements in the spiny lobster, *Palinurus vulgaris*. 349

CHAPPLE, WILLIAM D. Mechanical responses of a crustacean slow muscle. 367

ZILL, SASHA N. AND FORMAN, ROBIN R. Proprioceptive reflexes change when an insect assumes an active, learned posture 385

KANOU, MASAMICHI AND SHIMOZAWA, TATEO. The elicitation of the predatory labial strike of dragonfly larvae in response to a purely mechanical stimulus . . 391

WASHIO, HIROSHI AND MIYAMOTO, TAKENORI. Effect of lanthanum ions on neuromuscular transmission in insects 405

FARRELL, A. P., MACLEOD, K. R., DRIEDZIC, W. R. AND WOOD, S. Cardiac performance in the *in situ* perfused fish heart during extracellular acidosis: interactive effects of adrenaline 415

PASZTOR, V. M. AND BUSH, B. M. H. Graded potentials and spiking in single units of the oval organ, a mechanoreceptor in the lobster ventilatory system. I. Characteristics of dual afferent signalling 431

BUSH, B. M. H. AND PASZTOR, V. M. Graded potentials and spiking in single units of the oval organ, a mechanoreceptor in the lobster ventilatory system. II. Individuality of the three afferent fibres 451

PASZTOR, V. M. AND BUSH, B. M. H. Graded potentials and spiking in single units of the oval organ, a mechanoreceptor in the lobster ventilatory system. III. Sensory habituation to repetitive stimulation 465

SATTELLE, D. B., HARROW, I. D., HUE, B., PELHATE, M., GEPNER, J. I. AND HALL, L. M. α-Bungarotoxin blocks excitatory synaptic transmission between cercal sensory neurones and giant interneurone 2 of the cockroach, *Periplaneta americana* 473

SHORT COMMUNICATIONS

FAHIM, MOHAMMAD, MANGEL, ALLEN AND PRESSMAN, BERTON C. Effects of ionophore-mediated transport on the cardiac resting potential 491

PAGE

PARRY, D. A. Labial extension in the dragonfly larva *Anax imperator* 495

CORNELL, JOHN C. AND PAN, M. L. The disappearance of moulting fluid in the tobacco hornworm, *Manduca sexta* 501

GODDEN, D. H. AND GRAHAM, D. 'Instant' analysis of movement 505

ARBAS, EDMUND A. Aerial manoeuvring reflexes in flightless grasshoppers 509

KONDOH, YASUHIRO AND HISADA, MITUHIKO. Intersegmental to intrasegmental conversion by ganglionic fusion in lateral giant interneurones of crayfish. . . . 515

NICOL, S. C., GLASS, M. L. AND HEISLER, N. Comparison of directly determined and calculated plasma bicarbonate concentration in the turtle *Chrysemys picta bellii* at different temperatures 521
